### *Harper International Attending Achema 2006*

---

#### NEWS RELEASE –

Harper International will exhibit at the Achema 2006 Exposition in Frankfurt, Germany on May 15<sup>th</sup> –19<sup>th</sup>. Harper is located in Hall 4.1 Stand N34 and will exhibit its advanced thermal processing technology to the advanced material processing and chemical industry.

Harper International provides the advanced materials processing and chemical industry with customized thermal processing systems requiring precise atmosphere controls and ultra high temperatures. We provide ground breaking R&D, pilot plant, full production and complete post sales support. The Harper Technology Center provides process development to optimize scale-up.

Harper has extensive experience across a wide range of industries: Electronics, inorganic chemicals, ferrites, nuclear materials, carbon and graphite fiber, advanced ceramics, metal oxides, battery materials, fuel cells, solar cells, and nanomaterials.
